**ORIGINAL**

**MAYES PROPOSED AMENDMENT #6**

TIME/DATE PREPARED: September 8, 2009

COMPANY: Arizona Public Service Company

AGENDA ITEM NO. U-1

DOCKET NO. E-01345A-09-0263

OPEN MEETING DATE: 9/9/09

Page 9, line 16.5, INSERT New Finding of Fact: "Based on APS' projections, its proposed reduction in the customer incentive level in 2011 and 2013 will lead to cost savings.<sup>1</sup> Additionally, we believe it is likely that cost savings will result from allowing APS to use \$20 million in residential funds in 2009 and 2010 for compliance with its commercial distributed generation requirements as will the fact that the Commission recently lowered the commercial incentive. Together, these cost savings will likely free up funds that could be used in future years to make up the losses to the residential program that will occur as a result of this Order. We understand that these cost savings may not entirely restore the lost residential funding, but wish to ensure that at least some of the residential program is returned for use by homeowners as originally envisioned under the RES, particularly in future years when it is likely that demand for residential solar will expand even more dramatically than it is today. Therefore, we will direct APS to file, by October 16, 2009, as a supplement to its 2010 RES Implementation Plan, a proposal that has several other Target Deferrals (as outlined in APS' September 4, 2009 letter) that would begin at a later date and spread the cost recovery over a longer period. If possible, one of these proposals should include an RES surcharge Increase Cap Increase of zero.

Page 10, line 13, INSERT New Ordering Paragraph: "IT IS FURTHER ORDERED that APS shall file, by October 16, 2009, as a supplement to its 2010 RES Implementation Plan, a proposal that has several other Target Deferrals (as outlined in APS' September 4, 2009 letter) that would begin at a later date and spread the cost recovery over a longer period. If possible, one of these proposals shall include an RES surcharge Increase Cap Increase of zero.

Make all conforming changes.
